越癌越喜爱

Do You Really Hate Cancer?

跟随康迪，给人健康，启迪梦想

Your Health, Your Dream, Our Vision

现代人在癌的边缘

We Are Living On The Edge of Cancer

喜欢的食物：煎炸，甜，咸，过多荤食，加工和化学食品

爱喝的饮料：酒精，糖分，化学

生活择习：迟睡，抽烟，长时间在高辐射环境（电脑，手机，电视，高电压）

Favorite food: fried , sweet, salty , too much meat, processed and junk food

Drink: alcohol, sweet, processed drink

Habits: sleeping late, smoking, long hours in high radiation environments
(computers, mobile phones , television, high-voltage)

不良的生活习惯，美味的加工食品都是现代人都想戒掉的。但是，在这高速发展的环境，往往是有心无力！

不良的饮食习惯，空气和水源污染，高辐射的环境，甚至精神压力都会增加体内的自由基。经过多位医学专家证实，自由基是百病的源头。

自由基（活性氧）攻击人体细胞和基因（DNA），是90%疾病和老化的主因！

你知道吗？每根烟产生10,000,000,000,000,000个自由基！

We want to break bad eating and lifestyle habits. However, it's difficult to do so in such fast pace of life. Unhealthy eating habits, air and water pollution, high radiation environment, and mental stress will increase the formation of FREE RADICALS in our body.

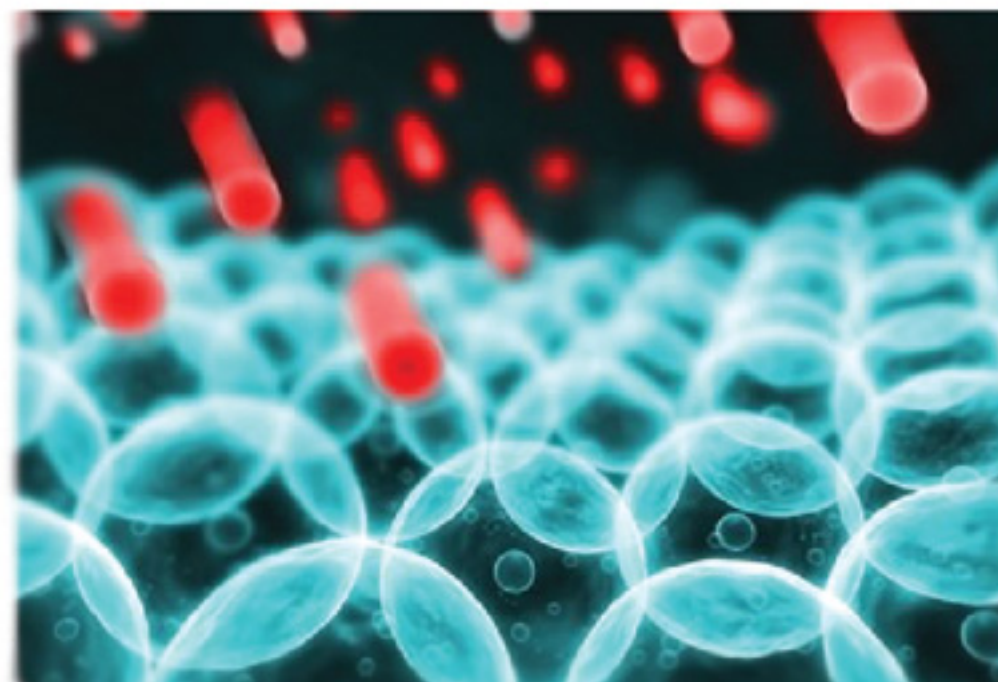

Medical experts confirmed that the FREE RADICALS damage DNA, cellular membranes and enzymes, thus causing AGING and DISEASE.

Do you know that each cigarette produces 10,000,000,000,000,000 free radicals?

何谓自由基

What is FREE RADICAL?

1995年获诺贝尔医学奖提名,来自美国的自由基之父—德罕哈曼博士(Denham Harman)指出: 自由基攻击人体细胞, 是引起机体衰老的主要原因, 也是导致癌症等恶性疾病的重要原因。

Dr. Harman is widely known as the "father of the free radical theory of aging", was nominated for a Nobel Prize in Medicine in 1995.

The free radical theory of aging (FRTA) states that free radicals attack body's cells , and it is the main cause of aging, cancer and diseases.

百病源头 Cause of Diseases

自由基 Free Radical

- 降低抵抗力
Weakening immune system
- 加速老化, 身体功能衰退
Fastening aging process, and declining of organ function
- 血管老化, 动脉硬化
Vascular aging , atherosclerosis
- 细胞突变, 造成多种疾病,
Cell mutation , causing various types of diseases,

防癌症最主要是 排自由基

To Prevent Cancer by Fighting Free Radicals

美国一项最新研究发现,

70%至90%的癌症个案, 都是生活环境和不良的饮食及生活习惯, 增加自由基所造成的。

换言之, 大部分癌症也可以透过改变饮食生活习惯预防。

A recent US study found that 70-90% of cancer cases are caused by poor living environment, bad eating and lifestyle habits that increase the formation of FREE RADICALS in our body.

In other words, most cancers are preventable by changing eating and lifestyle habits.

远离癌

就要养成好习惯!

Good Habits to Prevent Cancer!

- ☐ 早睡早起 Early to bed and early to rise
- ☐ 多做运动 Regular exercise
- ☐ 多喝水 Drink more water
- ☐ 多吃蔬果 Eat more fruits and vegetables
- ☐ 少吃荤 Eat less meat
- ☐ 远离加工化学食品 Cut processed & junk food
- ☐ 保持好心情 Keep up the good mood
- ☐ 少烟少酒 Quit smoking and cut back on alcohol

这些生活习惯你有做到吗？ Do you follow these good habits daily?

有的话，你就有在抗氧化。

If yes , you are having anti-oxidation.

可是在高速发展的社会，
有多少人可以做到这些好习惯？
无论如何疾病需要预防，
不能坐视不理。

我们有方法解决吗？

However, how many people can follow these good habits
in such fast pace of life?

No matter what, we have to prevent disease and cancer,
We just can' t sit back and do nothing.

Do we have the solution?

远离癌最简单的方法

The EASIEST Way To Stay Away From Cancer

好习惯做不到，那就从“水”开始。

喝水难吗？不难！

但是，一定要喝抗氧化的负氢离子水，才能够：

If can't follow the good habits, then you should began with drinking water.

Drinking water is not difficult at all.

However, be sure that you drink the hydrogen water, because it is effective to:

✓ 将体内的自由基排除!
remove free radicals from our body

✓ 将身体维持在7.8的弱碱性!
maintain our body at a slightly alkaline level

你认识抗氧化水吗？

Do You Know The Antioxidant Water?

负氢离子水，即是具抗氧化力的水。

自由基和氢结合，并被排除体外，避免细胞受破坏。
这有助于预防或治疗各种大小健康问题。

水的抗氧化能力越强，越能保护细胞不受自由基的破坏！

Hydrogen-rich water is an antioxidant water.

Hydrogenated water contains active hydrogen ions that act as powerful antioxidants in your body. The ions help eliminate oxygen free radicals that contribute to the development of illness and ultimately are responsible for the aging process.

The higher the concentration of hydrogen negative ions in the water, the higher of anti-oxidant effect.

专家怎么说 Expert's Eplanation

氢分子可清除人体自由基，对衰老及多种因自由基引起的慢性病具有很好的治疗作用。

Authoritative scholar globally in hydrogen medical field, his research on "hydrogen ions's removal effect of reactive oxygen" shocked the world!

In July 2007, he was the first to report that intake of 2% hydrogen will be able to effectively remove free radicals in the body and significantly improve cerebral ischemia-reperfusion injury.

负氢离水的功效

Benefit of Hydrogen-Rich Water

- ☐ 预防致命性疾病和癌症
Prevention of fatal diseases and cancer
- ☐ 控制血糖，预防糖尿病
Aids in reducing blood pressure, saturated fat and cholesterol levels
- ☐ 帮助排毒
Aids in circulation and digestion
- ☐ 增加抵抗力
Detoxifies cell and your entire body
- ☐ 延年益寿
Aids in absorption of nutrients and boost immunity
- ☐ 改善/增强性功能
Improves sexual function
- ☐ 减肥
Lose weight
- ☐ 美肤功效
Builds younger and healthier looking skin

无副作用的护肤品 Beauty Water

- 调节内分泌，延缓衰老，使皮肤焕发生机
- 增加人体美白元素，对淡斑、均匀肤色有显著功效
- 强化胶原组织，提升肌肤弹性
- 替细胞补水，滋润肌肤，美白及控油
- Remove free radicals from your body that cause premature aging of your skin
- Improve skin elasticity and prevent wrinkles
- Whiten skin by protecting against UV-induced skin cell damage
- Better hydrate and nourish your skin to keep it radiant
- Make your skin stay youthful by promoting type-1 collagen synthesis
- To clean, to soothe and to moisturize your skin

天然减肥法 Fitness Water

- 加强细胞活力和新陈代谢，使内脏和皮下脂肪减少，帮助减肥
- Increase metabolism and reduce fat

不是唯一，却是第一

- ☑ 维生素C
- ☑ 中和水pH值7.8 - 8.5
- ☑ 去除气味，氯气，细菌，重金属
- ☑ 保持水质含氧量和矿物质
- ☑ 有效清除自由基抗老，防癌及排毒，美肤美白作用
- ☑ 滤芯可自行洗净
- ☑ 无需用电，方便安装
- ☑ 售后服务及保养

1 生物陶瓷过滤器

采用英国著名品牌 DOULTON 100%天然矽藻瓷滤芯+银+活性炭亚微米级精密过滤能量滤芯可使水分子更细致化产生共振，能抑制细菌的滋生，促进人体新陈代谢的功用。去除异味、氯气、重金属。

第一层 外壳

带有细菌，囊肿及颗粒微滤的自来水先注满外层。

第二层 陶瓷基体

自来水在陶瓷基体中的抗菌式抑制微生物生长。

第三层 活性炭块层

通过活性炭块过滤出带有氯和有机物的水以改善味道和气味。

4 中空丝膜滤芯

过滤孔洞比细菌小，可滤除水中大多数的细菌；相对的它的孔洞又比溶解矿物质大，所以仍能够保留对人体有益的矿物质。
